

Opportunities for COMPASS Participants to Interact with the Institute for Ultra-Scale Visualization

Kwan-Liu Ma

University of California, Davis

<http://iusv.ucdavis.edu/>

- Meet the Scientists
 - <http://vis.computer.org/vis2007/session/panels.html>
 - 30 Oct, 2007, Sacramento, CA
 - I would like to invite COMPASS project to participate in the next "Meet the Scientists". The purpose of this activity is to introduce new visualization applications to the visualization research community, leading to greater effort on addressing some of the most challenging problems.
- SC07 Workshop on Ultrascale Visualization
 - <http://vis.cs.ucdavis.edu/Ultravis07>
 - 12 Nov, 2007, Reno, NV
 - This workshop will highlight the latest visualization research results and best practices on large data visualization. Please send your postdocs and students to this workshop.
- We are also happy to visit your laboratory/institution to learn about your visualization and data analysis needs and discuss collaborations.
